

Brunel's Other Bridge

David Greenfield PhD CEng MICE

Bob Watkins MSc CEng FICE AIHBC

EUR ING G. J. O. Wallis, C.Eng. MIMech E

The Western Counties Tuesday Group invites you to a free presentation.

The innovative Swivel Bridge in Bristol City docks was designed by Brunel and its construction overseen by him unlike the Suspension Bridge which was built after his death to a design not his own. The Swivel Bridge is arguably of greater historic importance than the Suspension Bridge, yet it is now derelict and will eventually collapse. A group of volunteers has taken on the heroic task of restoring the Swivel Bridge, but is the challenge a 'bridge too far' for voluntary effort? Come and learn about Brunel's Other Bridge, its problems and the ambitious project now under way to return this iconic structure to working order under hydraulic power.

Tuesday 28th October 2014

Pugsley Lecture Theatre | Queens Building | University of Bristol

1800 for 1830 - Refreshments and food provided
